Business Intelligence Labwork 3

In small groups discuss the following question you will need to present your solutions to rest of the class.:

Question 1 – GDPR

Using the research carried out on the GDPR in week 4, construct a brief presentation discussing the implications of the GDPR for your chosen organisation.

Question 2 - Extraction, Transformation and Load (ETL) Process

1. Discuss each step in the ETL process
2. Identify operations which would need to be carried out at each stage of the ETL process
3. Use example from your chosen organisation demonstrate the operations discussed in 2. above.

Question 3 – Coursework 1

You can now complete the data warehouse section of your coursework 1.
